

# SPLASH OUT™ GAME Instructions & Rules **A**

## PREPARATION:

1. Separate the ball halves by twisting them clockwise.

2.  Using the included hose/faucet adapter, fill the balloon to approximately 3-3.5" diameter.

3.   Clip the balloon closed using one small, reusable balloon clip at the stem, allowing it to close with a snap. Be careful not to pierce the balloon while clipping.

4.  Place the balloon into the center area of the bottom half of the ball, clip facing sideways.  
**REMINDER!** Clips are reuseable - Save them!

## DUAL MODE PLAY:

5.  For outdoor play, flip the adapter cup down.

-  For indoor play, flip the adapter cup up.

-  Use the low-splash adapter cup to hold a balloon of approximately 2-2.5" diameter.

6.  Connect the 2 ball halves back together by aligning the dots, then pressing the two halves together and twist to lock.

7.  Wind up the timer counter-clockwise to begin play.

## GAME PLAY:

1. Shuffle the Question Cards and place them in a stack where all players can reach them.
2. Choose a player to go first (oldest, youngest, your choice).
3. That player picks the top Question Card and chooses ONE question from the Card, and reads it aloud to all players.

**EXAMPLE:** "Something you'd wear on your head or face"

**SOME GOOD ANSWERS:** Hat, Eyeglasses, Earrings, Nose Ring, Mustache, Contact Lenses...

4. That same player now winds the ball up, quickly answers the question with one answer, and then tosses or hands the ball to the player to his/her right, who then most quickly answer the same question with a different answer, before passing the ball to the player on their right.
5. Eventually someone will be holding the ball when the timer goes off, and the balloon will burst. SPLASH OUT!
6. The player who got wet must take that first Card as a point score against them.
7. Another player now reloads the SPLASH OUT Ball, picks another Card, and play begins again.

## ELIMINATION, AND WINNING:

Each time any player loses a round and gets wet, they must take the Card as a point score against them. When any player has collected 3 Cards, they are out of the round and play continues with the other players. The last player remaining, after all others have been eliminated, is the winner.

## SPLASH OUT™ GAME Instructions & Rules **B.**

### VARIATIONS OF PLAY:

1. A player can pass the ball to any other player they choose, not just the player next to them.
2. When a player gets the ball, they must hold it over their head as they answer the question.

### NEW ANSWERS, PLEASE:

If a player either answers a question incorrectly, or answers with the same answer as another player just called out, other players can yell out their challenge, and that player must answer again with another (unused) answer.

### BALLOON-FILLING TIPS:

To fill the balloon, there are multiple options using the included hose/faucet adapter:

1. Firmly attach the adapter to a hose or faucet with a threaded opening.
2. Firmly press the adapter into the opening of the faucet such that water does not escape when filling.

3. If you do not have access to a faucet compatible with the adapter, then try using the following water bottle method:

- a. Screw the adapter onto the threaded top of a full 500-700ml water bottle.
- b. Find a water bottle with a squirt top - RECYCLE!
- c. Attach the balloon opening to the adapter.
- d. While holding the bottle downward fill the balloon.

4. You can also try simply fit the water balloon opening around the faucet opening. If the faucet is not too big.

5. Once the balloon is filled, clip the balloon closed using one small, reusable balloon clip at the stem, allowing it to close with a snap. Be careful not to pierce the balloon while clipping.

6. **IMPORTANT! Prepare several balloons ahead of time to avoid delays between game rounds!**

7. Now you're ready to think fast, or SPLASH OUT!
